

# When You Need the BEST CARE, Choose the Doctors Who CARE THE MOST

## The OB/GYN Practice of **Drs. Back, Seigel & Goldstein**

*Over 25 Years Experience In This Area*

Norman A. Back, MD • Mark J. Seigel, MD  
Steven A. Goldstein, MD

and Susan M. Schneider, RN, APN, C

**PERSONALIZED CARE YOU CAN TRUST.** With our practice, you are not just another face; you are considered our most precious client – a unique individual who deserves our utmost care, attention and expertise. Because we care so much about you, you will never get an impersonal answering service. One of our 3 doctors is always available to answer calls 24/7. You also will be seen by only our doctors. We do not hire fill-in doctors or strangers, even if one of us is away/on vacation.

Our motto is to listen to you always and treat you as a unique individual. We want you to feel comfortable and know you will appreciate the personal care our small group provides and our warm and supportive office staff. We take pride that our practice always follows these four words: compassion, respect, sensitivity, and honesty. We believe that you, the patient, always come first.
